

The image shows a modern acoustic screen system. It features a large, rectangular grey felt panel with rounded corners. A light-colored wooden shelf is attached to the front of the panel. The panel is mounted on a white metal frame. The background is a plain, light grey wall.

DESK 760

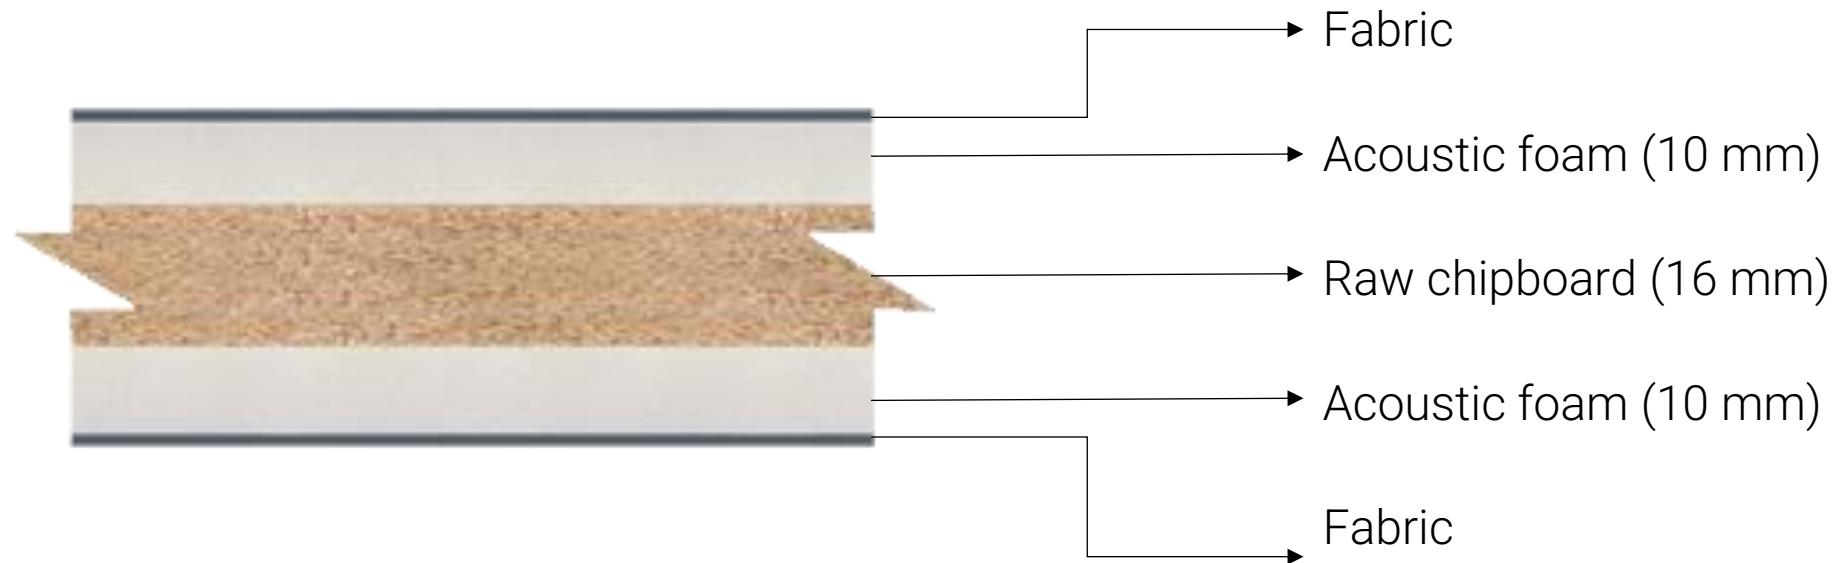

ACOUSTIC SCREENS' SYSTEM

narbutas

Acoustic screens DESK 760 are
mounted on the desktops

They are filled with noise reducing material which is covered with felt wool or polyester fabric.

- Bigger visual and sound protection;
- Provides more privacy, but still does not isolate from other employees;
- The thickness of the panels is 3,6 cm, height above the desktop – 53 cm, depth 100 cm.

Desk 760 acoustic screen system can be mounted on:

- 2,5 cm thickness desktops;
- 120cm, 140cm, 160cm, 180 cm length desktops;
- NOVA, AIR, Easy, OPTIMA G systems – single workplace tables.
